

David Ajayi

Senior Product Designer

themideajayi@gmail.com · themideajayi.vercel.app · linkedin.com/in/mide-ajayi · Lagos, Nigeria

Senior Product Designer with **6+ years** building financial products across fintech and crypto. Founding designer at **Send App** (Flutterwave's remittance platform) which grew to process **\$150K+ daily** for **5M+ users** across **45+ countries**. Products shipped across six years include Africa's first Bitcoin-backed loan service (**\$2M+ disbursed at Bitnob**) and **Raenest FastTrack** — **\$2.4M** processed for **10,985** freelancers in its first four months.

EXPERIENCE

Raenest

Aug 2025 – Present

Senior Product Designer

- Designed **FastTrack**; an accelerated payout feature that reduced Upwork withdrawal time from **48 hours to under 1 hour**, processing **\$2.4M** for **10,985** customers in its first 4 months.
- Improved onboarding conversion by **16.8%** within three months of reworking the onboarding flow.
- Led design for **Raenest Wrapped**, the company's first personalised year-in-review campaign; driving strong organic social sharing and new sign-up activity at launch.
- Led design for product expansion into **India and the Philippines**, and contributed to the Raenest–Geegpay brand merger.

Flutterwave — Send App

Jul 2021 – Jul 2025

Senior Product Designer (Jul 2024 – Jul 2025) · Product Designer (Jul 2021 – Jun 2024)

Founding designer — hired to build from scratch, promoted to Senior in 3 years

- Founding designer for **Send App**; led UX direction from ideation to launch, scaled to **5M+ users** across **45+ countries** with **\$150K+ daily** and **\$350M+** in annual revenue.
- Spearheaded **Send App's brand refresh**, driving a **54% increase** in app downloads and establishing the design system used across web and mobile.
- Redesigned the referral programme, achieving a **35% conversion rate** post-launch.
- Led design for **North Africa, East Africa** (Kenya, Tanzania), **UK, EU, Canada and US** market expansions; contributed to **28% increase** in cross-border transfers.
- Led Disha's post-acquisition transformation; growing the creator base **400%** across **34 countries**, cutting transaction fees by 15% against industry standards, and driving **\$600K** in payments with a **340% average increase** in creator earnings.

Bitnob

May 2020 – Jun 2022

Product Designer · UI/UX Designer · Design Intern

Joined as intern, promoted to Product Designer within six months

- Designed **NobCredit**; Africa's first Bitcoin-backed loan product, generating **\$2M+** in disbursements and contributing **2.5%** of company revenue.
- Designed **Bitnob for Business**; a B2B crypto payment platform used by **300+ businesses** processing **\$20M/month**, which drove a **40% increase** in client retention.
- Led UX for the **Bitnob DCA Calculator**; drove **50K+ unique visitors** in Q1, **45% conversion** to app download, and **60%** of converted users started DCA journeys through Bitnob.
- Built an internal operations dashboard that cut administrative task time **from hours to under 2 minutes**, reduced operational queries by **60%**, and saved **20+ hours** weekly.
